PowerDrive Archer High Build Rate Rotary Steerable System

September 12th, 2020 — Schlumberger performed finite element analysis (FEA) and a detailed strain based fatigue study on all components of the PowerDrive Archer BHA to understand the effects of high build rates. These tests produced a predicted fatigue life. PowerDrive Archer RSS is the only RSS to build high angles from any deviation. The system.

The Revolution Rotary Steerable System How It Works

September 5th, 2020 — Weatherford’s Revolution rotary steerable system RSS provides industry-leading temperature, pressure, and dogleg capabilities in a range of sizes. Covering ho

Investor Highlights Archive, Schlumberger

September 12th, 2020 — Schlumberger technologies such as PowerDrive Xceed ruggedized rotary steerable system and GeoSphere — reservoir mapping while drilling service — played an important role in achieving the time savings of 6.7 days per well.
Schlumberger launches slimhole high build rate rotary
August 18th, 2020 - AMSTERDAM Schlumberger announced today the release of the slimhole PowerDrive Archer high build rate rotary steerable system RSS. The new RSS delivers build rates of up to 18° 100 feet ft.

The Best of Both Worlds—A Hybrid Rotary Steerable System

September 10th, 2020 - the PowerDrive Archer rotary steerable system This hybrid system produces the high build rate of a positive displacement motor with the rapid rate of penetration of a rotary steerable system A Brief History The intentional deviation of wellbores came into practice during the late 1920s as operators sought
Schlumberger releases new CT MWD RSS and PCD bit

September 12th, 2020 - Schlumberger has released the slimhole PowerDrive Archer high build rate rotary steerable system RSS. This RSS delivers build rates of up to 18° 100 ft with full directional control and dogleg assurance for complex 3D well profiles and multi lateral well designs says Schlumberger.

Schlumberger Launches Slimhole High Build Rate RSS ROGTEC

July 29th, 2020 - Schlumberger announced today the release of the slimhole PowerDrive Archer high build rate rotary steerable system RSS. The new RSS delivers build rates of up to 18° 100 feet ft with full directional control and dogleg assurance for complex 3D well profiles and multilateral well designs.

Ajoy Nambiar, Product Owner, Schlumberger LinkedIn

June 6th, 2020 - Joined Schlumberger in 2006 as a Field Engineer and worked on offshore projects in Qatar to drill directional wells with horizontal reach. In 2010 I moved from logging engineer role to Directional Driller PowerDrive Archer. Achieved a 10 fold improvement in reliability from 250 hours in 2012 to 3291 hours in 2016 MTBF.

Muhammad Sarfraz Balka, Principal Drilling Engineer
August 23rd, 2020 - PowerDrive Archer RSS maximizes reservoir exposure reduces risk and increases hydrocarbon production. The drilling system is capable of delivering dog legs of 90° 30m compared to 30° 30m with other RSS assemblies. Salamander Energy Thailand needed to drill several horizontal side track wells in order to boost production for its Bualuang field.
