Introduction Television at the Crossroads

Television in substantially its present form has been with us for nearly 50 years. It is a tribute to the National Television Standards Committee (NTSC) that the color television standards agreed upon in the early 1950s have performed remarkably well making quite efficient use of valuable radio spectrum space, with over 500,000 users downloading 3 million documents per month. The WBDG is the only web-based portal providing government and industry practitioners with one-stop access to current information on a wide range of building-related guidance criteria and technology from a whole buildings perspective. This lesson introduces the basic parts of a sewing machine. The parts selected include the most common elements across machine models and parts people must know to effectively operate a sewing.
