duct fitting pressure loss various duct fitting pressure losses airah da3 or the airah technical handbook more available in the ashr ae handbook or smacna obtain other duct fittings pressure losses from manufacturers such as duct heaters dampers filters grilles coils etc, smacna hat section roll formed and cut to length great for duct reinforcement and hangers to replace uni strut, spiral duct and fittings construction standards air distribution corporation air distribution corporation spiral duct and fittings are manufactured in accordance with applicable smacna ashr ae and spida standards gauge schedule size dia spiral pipe 3 16 26 18 26 24 28 40 22 42 50 20 52 84 18 gauge schedule, four bolt flange systems meet a smacna classification of t24 the strongest transverse connection in rectangular duct ductmate and ward style flange systems use integral mastic which seals the flange to the duct wall and a butyl gasket between the flanges to virtually eliminate air leakage making for the highest pressure class of ductwork, gasket bolts nuts and cleat the flange attach to the duct wall and has an integral mastic which allows the flange to seal itself to the duct corner pieces are used to add rigidity to the flange hold the ductwork together and provide a sealing surface for the gasket the gasket serves as a seal between the flanges, notes 1 tdc duct constructed per smacna standards first edition 1995 2 duct fabricated using snaplock seams 3 all duct stiffened by machine formed beads spaced at 12 o c 4 duct work to be sealed per smacna hvac table 1 2 5 tdc cnt jnt condu loc tdc connector center of duct amp tdc connector, for technical data amp dimensions click here aeromat plastics inc 801 cliff road east suite 104 burnsville mn 55337, smacna standards ootb takeoff length 0 25 duct width 4 minimum but allows you to override both the length and the angle if desired so
this is really all that you need to accomplish this there are a bunch of nested
if statements that drive the dimensions have fun going through it if you d like,
i 2 duct amp fittings catalog introduction semco has manufactured quality round
and oval spiral duct and fittings since 1963 in addition to offering the
economies of standardization and mass production semco will work with you on
those projects that require a high degree of customization hence the name
customair duct systems, if the designer does not designate pressure class for
duct construction on the contract drawings the basis of compliance with the
smacna hvac duct construction standards is as follows 2 500 pa w g for all ducts
between the supply fan and variable volume control boxes and 1 250 pa w g for all
other ducts of any application, smacna cad standard second edition v notice to
users of this publication 1 disclaimer of warranties a the sheet metal and air
conditioning contractors national association smacna provides its product for
informational, flanged ducting yes we have flanged duct us duct provides duct
with flanges also called angle rings or angle flanges in black iron galvanized or
stainless steel ss and with or without holes the duct to which these flanges are
attached it available in sizes 3 and up and also in black iron galvanized or ss,
tdc ductwork and fittings smacna recommended tdc duct is a 4 bolt system with a
difference instead of cutting assembling and installing a separate flange onto
the ductwork the tdc flange is roll formed directly onto the duct this provides a
solid metal connection, alternate flange style the joint may be formed without
the 3 811 9 5 mm flange if the duct is held 1 811 3 2 mm back from the vertical
face of th angle and tackwelded to the flange along the edge of the duct the
angle is otherwise fastened normally for additional tightness place sealant
between the angle and duct or seal the weld, of duct using the schedule shown
below for weather proof duct connection install a full length one piece cleat to
top duct flange joint to prevent water from collecting on gasket if a corner
cannot be clipped or bolted due to inaccessibility cleat can be driven onto the
mating flanges to complete the ductmate connection with dm440 gasket, the tables
as shown herein are the smacna tables with those interpretations already substi-
tuted by conducting joint performance testing as described in section vii of the
smacna hvac duct construction standards 2nd ed 1995 it was found that in some
tests the ward angles e h and j permitted a more liberal interpretation of the
smacna tables, for industrial duct the van stone connection consists of a face
flange and a backing flange with a slip fit over the duct the face flange is
mechanically formed from the end of the duct section by turning the edge of the
duct and forming a lip with an outside diameter small enough to clear the
connecting bolts as shown on the illustration, the above table meets smacna 1995
duct construction standards for galvanized or stainless steel duct and fittings
the tdc transverse duct connector by lockformer is an integral part of the duct
or fitting and is roll formed on all sides of the end connections ir is the
intermediate reinforcement required, when ordering duct or fittings specify 2 4 0
x y z s or n in the position of the designation 2 pressure ranges listed for 2 4
0 x y and z are based on 1995 smacna duct construction standards galvanized only
3 smacna is the sheet metal and air conditioning contractors national
association, dual wall round duct and fittings construction standards gauge
