traveling Africa ask her what things she always travels with she will definitely mention two things—detergents and toilet paper. If you are an investor and do not understand this, then you are missing the boat on Africa's emerging fast-moving consumer goods (FMCG) market. The term soap refers to a particular type of detergent in which the water-solubilized group is carboxylate and the positive ion is usually sodium or potassium. The largest soap market is bar soap used for personal bathing. Research and development costs are increasing and rising, and most of these products are becoming high tech in nature as consumer care products. We mean products such as soaps, detergents, laundry aids, bleaches, hair care products, skin care products, fragrances, and more. Key market drivers of this industry include...
