Sixty Steps to Precis: A New Approach to Summary Writing for Overseas Students by L.G. Alexander

A precis is a summary. Writing a precis involves summarizing a document to extract the maximum amount of information in the shortest possible form. It requires identifying the main ideas and the most essential information, and expressing it concisely without altering the original style or omitting important details.

To write a precis, follow these steps:
1. Read the paragraph thoroughly and identify the main idea or the central point.
2. Pencil down the key points that you believe are important and should be included in the precis.
3. Write a concise summary that captures the essence of the original text.

Remember, a precis is not just a brief version of the text; it should convey the same message in fewer words. It's a skill that is highly useful for students and professionals alike.

This book, Sixty Steps to Precis, is designed specifically for overseas students preparing for competitive examinations. It includes 60 solved and 22 unsolved selections to provide practical experience in precis writing. It's available at various bookstores, including AbeBooks, where you can find other related books, art, and collectibles.
