August 16th, 2018 - Exemplary Professional Practice Report.
The Professional Practice Model is a schematic description that depicts how nurses practice, collaborate, communicate, and develop professionally. The role of the Coordinating Council is to synchronize the work of all the councils and to provide peer review.

Peer review is defined as an organized effort whereby practicing professionals review the quality and appropriateness of services ordered or performed by their professional peers. In nursing, it is the process by which practicing registered nurses systematically assess, monitor, and make judgments about the quality of nursing care provided.
