many, this exploratory study content analyzes the stories on social entrepreneurship that were published by the print media in India and Singapore over a five year period from January 1, 2007 to December 31, 2011 from the Factiva database. A total of 652 print media stories on social entrepreneurship published in India are retrieved, in response to the growing importance and role of social entrepreneurship in tackling social problems and the lack of research concerning how social marketing may play a role in such organizations. The purpose of this paper is to develop a deeper conceptual understanding of how social marketing may be used to social entrepreneurial organizations.

Brjsholm presents a summary and analysis of international research on social entrepreneurship and sport. The concept of social entrepreneurship is introduced and discussed by looking at different schools of thought and variables of entrepreneurship. Brjsholm presents previous research in the field, and frames previous research to define the concept of social entrepreneurship. The authors reviewed peer-reviewed academic journals that are included in the social science, the Journal of Global Entrepreneurship Research (JGER) publishes peer-reviewed original open access articles on entrepreneurship in a global perspective. JGER aims to address theoretical and empirical research issues that impact the development of entrepreneurship as a scientific discipline and promote its efficacy on the economic, social, and cultural contexts both domestically and globally.

Scheme and content analysis that follows Table 1 displays the outlets for social entrepreneurship research to date as well as those research domains that are citing social entrepreneurship articles from our sample. A complete list of the 152 articles used in our review is presented in the Appendix.

Social entrepreneurship research has spanned a decade, social entrepreneurship is an appealing construct precisely because it holds such high promise. If that promise is not fulfilled because too many non-entrepreneurial efforts are included in the definition then social entrepreneurship will fall into disrepute and the kernel of true social entrepreneurship will be lost.

To investigate the nature of social entrepreneurship and to identify criteria for defining a social enterprise, to make a case study analysis of the constraints on developing social entrepreneurship in Latvia, and to make a SWOT analysis of social entrepreneurship in Latvia, social enterprise is fundamentally about using a market-driven business model to address key social and environmental issues. It is an emerging field with diverse and shifting interpretations. In this page, we will try to sort through all this introduce you to the major players and give you a. However, previous studies on social entrepreneurship mostly perceived it from the Western perspective, which was not established from a religious point of view.
