Surface Mount Package Marking Search

June 14th, 2019 - Modern surface mount electronic components are often too small to write the part number on so a 2, 3 or 4 digit code is often used. This search engine is designed to help identify the part from this code. SMD markings may not be unique. For example, the Avago AFT36077 and the Fairchild FDN360P are both marked 360. Fortunately, the packages are different.
