April 21st, 2019 - The following pages contain ships rigging diagrams and descriptions. These photos were made possible by Captain Alan MacLeod who so kindly took us aboard the sloop MAX when the Tall ships visited Halifax.

Fully Rigged Ship

A sloop of war was quite different from a civilian or mercantile sloop which was a general term for a single-masted vessel rigged in a way that would today be called a gaff cutter, but usually without the square topsails then carried by cutter-rigged vessels. Though some sloops of that type did serve in the 18th-century British Royal Navy.

The Sloop Printable Scenery

Give me a sloop, a barrel of rum, and a star to guide the way. The sloop comes in two versions -- ballista and cannon. Included in the ZIP file are separate deck layouts, interior fittings such as barrels and boxes, a removable 'wake' that simulates ship movement, cannons, ballista deck guns, and rigging clips. To rig the sloop, check out the general Rigging Guide.
