Social Emotional Development Report Comments

I created a series of social emotional developmental checklists to help parents, educators, and counselors gain insight into how they can best support children's social and emotional development. These social and emotional developmental checklists are free to download. They are meant to be used as a point of reference, report card comments, and phrases highlighting character and social emotional learning traits. Help parents and students appreciate the development and importance of 21st century skills and character traits while making the report card writing process faster and easier. Suitable for all grade levels.

A tremendous amount of social and emotional development takes place during early childhood as kids experience temper tantrums, mood swings, and an expanding social world. Right now, there is no widespread practical way for all schools to assess children's social emotional skills and character development. Some are associated with children's ability to engage in relationships with others, whereas others are associated with positive self-awareness. Early childhood educators keep track of children's development in many ways, reporting on students' social emotional and character development most teachers are used to simply selecting from a menu of comments to describe a student's behavior on a report card. However, this page presents an overview of the developmental tasks involved in the social and emotional development of children and teenagers, which continues into adulthood. The presentation is based on the eight stages of development developed by the psychiatrist Erik Erikson in 1956. Social and emotional development research shows that those with higher social emotional skills have better attention skills and fewer learning problems and are generally more successful in academic and workplace settings like any math or English skills, these skills can be taught and grow over time.
