music theory is the study of the practices and possibilities of music. The Oxford Companion to Music describes three interrelated uses of the term music theory: the first is what is otherwise called rudiments, currently taught as the elements of notation of key signatures, time signatures, rhythmic notation, and so on. The second is the study of writings about music from ancient, combining traditional art fundamentals with cutting edge technology. The graphic design A.A.S. degree consists of comprehensive coursework that prepares students for a variety of jobs including web design, video editing, computer animation, print production, and others, combining traditional art fundamentals with cutting edge technology.
