The practical idea in Hegel's system is the penultimate stage of development of the idea. The absolute idea is the unity of the theoretical idea and the practical idea. In his characteristic upside-down way, for Hegel, theory is the criterion of truth in the practical idea. Cognition, knowledge, and volition, or intention, are synthesised in the subjective notion. Pulling off a successful product launch is no easy feat during the planning and lead up. There are lots of things to pay attention to and keep track of, whether it's scheduling meetings, meeting sprint goals, or ticking off items on your sales and marketing launch checklists.
