Action research is either research initiated to solve an immediate problem or a reflective process of progressive problem solving led by individuals working with others in teams or as part of a community of practice to improve the way they address issues and solve problems. There are two types of action research: participatory and practical further explanation needed. An effective RTI model should begin with quality core instruction that adequately addresses the needs of most of the students if more than 20% of the students require additional support than what is provided in tier 1 then the school will not have the resources necessary to address the needs of those students, these commonly used methods are appropriate for particular research questions and contexts. Qualitative research includes a variety of methodological approaches with different disciplinary origins and tools. This article discusses three commonly used approaches: grounded theory, mixed methods, and action research. Action research provides background for those who will encounter these methodologies in their, participatory action research. PAR differs from most other approaches to public health research because it is based on reflection, data collection, and action that aims to improve health and reduce health inequities through involving the people who in turn take actions to improve their own health. This section contains key information to aid the action research process. First, we present three models or paradigms for action research. Second, we provide some examples from a range of educational research projects that have employed the model. Practical action research examples of model 3 are mostly social and community research and examples are not included here. Participatory action research PAR is an approach to research in communities that emphasizes participation and action. It seeks to understand the world by trying to change it collaboratively and following reflection, PAR emphasizes collective inquiry and experimentation grounded in experience and social history. Practical action aims to achieve inclusive services liveable cities where poor people can enjoy at least a basic level of services as part of their human rights and the foundation on which they can improve their well-being and live the life they value.
