Formative assessment vs. summative
What is the difference between formative and summative assessment? Formative assessment is summative assessment the goal of summative assessment is to evaluate student learning at the end of an instructional unit by comparing it against some standard or benchmark. The page you are trying to access has moved. The Connecticut State Department of Education has a new website. If you have existing bookmarks you will need to navigate to them and rebookmark those pages.

Summative assessments allow the teacher to know if the students got there successfully. Once instruction is complete, summative assessments are given at the end of a unit, course, or academic year. Summative assessments are often a one-time event that occurs at the end of a learning unit and are used to make judgments about student competence.

Elements of the formative assessment process were identified by several researchers: Sadler (1989), Black, American Association of Assessment and Educational Measurements. The snowballing process is that formative assessment is happening throughout the learning, as opposed to summative assessment, which is often a one-time event that occurs at the end of a learning unit and is used to make judgments about student competence.

Within our five-day integrated unit, we used formative and summative assessments to evaluate our students' work. To begin our unit, we gave them a pre-assessment using Kahoot. We made the Kahoot using specific vocabulary from the unit's standards through a combination of videos and class discussions.

Students will be introduced to definitions and examples of symbiotic relationships. Students will solidify...
their definitions of relationships with an included fun picture based interactive quiz. Formative assessment is a great way to monitor student learning and provide feedback that can be used by educators to improve their teaching and by students to improve their learning. A summative assessment evaluates what the student learned at the end of a unit or chapters while formative assessment monitors the students learning progress from time to time. Formative assessment represents low stakes meaning this is not really quantified or graded rather the feedback could be qualitative on the other hand the...
