Skill Development Initiative Scheme Sdis

Skill Development Initiative Scheme Sdis is a government scheme that aims to improve the skill level and educational attainment of the workforce. The scheme is designed to address the gap between the skills demanded by industry and the skills possessed by the workforce. The scheme is implemented by the Ministry of Labour and Employment, Government of India, and involves a collaborative effort between the government and industry.

The scheme is based on a modular employable skills approach, which means that skills are developed in stages, with each stage building on the previous one. This approach is intended to make it easier for workers to acquire new skills and for employers to fill gaps in the workforce.

The scheme includes a number of different initiatives, each of which is designed to target specific groups within the workforce. These initiatives include:

1. Skill Development Initiative Scheme (SDIS): This is the main scheme, and it is designed to improve the skill level and educational attainment of the workforce. It includes a variety of initiatives, such as:
   - Craftsmen Training Scheme (CTS): This scheme provides vocational training for workers, with a focus on developing employable skills.
   - Apprenticeship Training Scheme (ATS): This scheme provides training for young people, with a focus on developing skills that are in demand in the job market.
   - Skill Development Initiative (SDI): This scheme provides training for workers who are looking to upgrade their skills.

2. Skill Development Initiative for Early School Leavers (SDESSL): This scheme provides training for young people who have left school early, with a focus on developing skills that are in demand in the job market.

3. Skill Development Initiative for Migrant Workers (SDIMW): This scheme provides training for migrant workers, with a focus on developing skills that are in demand in the job market.

4. Skill Development Initiative for Urban Poor (SDIUP): This scheme provides training for urban poor workers, with a focus on developing skills that are in demand in the job market.

The scheme is implemented through a network of training providers, which includes:

- Registered Vocational Training Institutions (RVTIs)
- Self Employment Training Institutes (RSETIs)
- Grant-in-Aid Institutions

The scheme is funded by the government, with contributions also made by employers and workers. It is designed to be flexible, with training providers able to tailor their courses to meet the needs of specific industries and sectors.

The scheme is evaluated regularly to ensure that it is effective in improving the skill level and educational attainment of the workforce. It is intended to help India become more competitive in the global job market by developing a skilled workforce that is able to meet the needs of employers.
determines the productivity as well as the ability to adapt to the changing industrial environment. Undertook development of a new strategic framework for skill development for early school leavers and existing workers, especially in the automotive sector.
