One of the most critical skills today's occupational therapists will need to learn and master is documentation. The most successful workbook on the market to educate students and keep professionals sharp is *Documentation Manual for Writing SOAP Notes in Occupational Therapy* now available in an improved and revised second edition.

We get a lot of questions about our occupational therapy documentation among other things. So let's take a moment and talk about how we designed it and why we started with the Occupational Therapy Practice Framework. Logically we started our occupational therapy documentation with the OT Practice Framework as defined in university textbooks.

Subjective or summary statement by the client. Usually this is a direct quote. The statement chosen should capture the theme of the session. If adding your own explanatory information place within brackets to make it clear that it is not a direct quote.

An effective progress note is essential to tracking the progress of an occupational therapy patient's case. One of the most effective forms of progress notes is the soap note. Soap notes effectively record the subjective, objective, assessment, and plan. Soap note taking is an organized way to track progress.
