Interior Architecture Wikipedia
April 18th, 2019 - Interior Architecture is the design of a building or shelter inside out type home that can be fixed. It can also be the initial design and plan for use, then later redesign to accommodate a changed purpose or a significantly revised design for adaptive reuse of the building shell. The latter is often part of sustainable architecture practices conserving resources through recycling.

The History of Interior Design ArchitectureWeek
September 4th, 2001 - The History of Interior Design by John Pile. In the modern world, human life experience is largely played out in interior spaces. We may love the out of doors for the sense of open air and sky for the escape it offers from life inside enclosure but the very joy of being outside reflects the reality that so much of life is spent inside.
