Pratt And Whitney Pw100

services cts turbines, the Pratt & Whitney Canada Pw100 engine family is a series of 2,000 to 5,000 horsepower 1,500 to 3,700 kW turboprops manufactured by Pratt and Whitney Canada subsidiary headquartered in Longueuil, Quebec. The Pw300 as a fully authorized Pratt & Whitney Canada designated overhaul facility StandardAero is recognized as a high-quality provider of complete services for the Pw300 series turboprops.

When the Williams International Fj44 turbofan engine was introduced in the late 1990s it established a new standard for efficiency and power. Sierra Industries immediately launched a program to certify the Fj44 2A for re-engining the Citation I offering as much as 25% greater fuel efficiency and dramatic across-the-board performance increases. The Fj44 Eagle II was certified in 2002 and the Pw6 engine milestones its 10,000th engine.

The Pratt & Whitney Canada Pw100 Pw100 is more descriptive of the family than of one particular engine. Engines in the family are Pw118, Pw121, Pw123, Pw127, etc., up to the Pw150. This is a larger class of engine than the Pw6 and is primarily intended for large regional commuters.

The Pratt & Whitney Canada Pw100 Pw100 engine family is a series of 2,000 to 5,000 horsepower 1,500 to 3,700 kW turboprops manufactured by Pratt and Whitney Canada subsidiary headquartered in Longueuil, Quebec.

Fact Sheet: Pratt & Whitney Canada have adopted a relatively unusual engine configuration for the Pw100 a three-shaft arrangement in accordance with P&W approved documentation and authorities instructions for continued airworthiness. It allows for a relatively simple and efficient solution for the large engines of this class.

Pratt & Whitney is an American aerospace manufacturer with global service operations. It is a subsidiary of United Technologies UTC. Pratt & Whitney's aircraft engines are widely used in both civil aviation especially airlines and military aviation. Its headquarters are in East Hartford, Connecticut as one of the big three aero engine manufacturers. It competes with General Electric and Rolls-Royce.
