The purpose of this SLO draft is to provide the ESOL professional with options for creating an academic language-based SLO. One of the two required SLOs must be aligned to MDE's state-mandated English language proficiency. The SLOs represent a part of Pennsylvania's Multiple Measures Comprehensive System of Educator Effectiveness, authorized by Act 82 HB 1901. This student learning objective example was developed using a template from the Wisconsin Department of Public Instruction, demonstrating how an elementary teacher can use a book as a tool to document improvement in their students' ability to read and comprehend text. These learning objectives, the prototype for each of the courses listed below, were identified as the building block for the Carnegie Faculty Inquiry Group and Independent Faculty Contributions. A group of faculty members conceived these learning outcomes as the foundation for each of the courses listed below. The SLOs are a part of Pennsylvania's Multiple Measures System of Educator Effectiveness, authorized by Act 82 HB 1901. The activities are designed to support student achievement of the content standards. Educator effectiveness and professional learning is aligned to the Connecticut guidelines for educator evaluation core requirements, which were adopted by the Performance Evaluation Advisory Council (PEAC) and informed the implementation of model teacher and administrator evaluation and support systems. The U.S. Department of Education funded the Center on Great Teachers and Leaders through a cooperative agreement with the American Institutes for Research. The contents of this website were developed under a cooperative agreement (S283B120021) from the U.S. Department of Education.
