when is a pitbull ready to breed Yahoo Answers
April 24th, 2019 — 1-5-2 years is when a male dog is mature enough to produce a healthy amount of sperm. However, are you ready to allow your male to mount a female in season and risk getting bitten when they attack each other because they are attached? If you do not know the answer to that question, then I would say you should not breed him. This is why.
